ARCHITECTURAL COMMISSION
April 10, 2017

PROJECT:	**Population Health Facility**
PROJECT NUMBER:	**205430**
PROJECT MANAGERS:	**Jeannie Natta and Lyndsey Cameron**
ACTION:	**Information on Site Selection**
OBJECTIVE:	**The facility will serve as a powerful catalyst for the University's new Population Health Initiative and be an idea laboratory and collaboration incubator.**

PROJECT DESCRIPTION:

The Population Health Facility will house the Institute for Health Metrics and Evaluation, the Department of Global Health, and elements of the School of Public Health, all of which will greatly benefit from close proximity. The facility will also provide central gathering spaces for faculty, students, staff, partners, and visitors from a wide range of disciplines across campus, the region, the nation, and the world to address important global health concerns.

PROJECT BUDGET: $230,000,000

***Schedule**
