# Facilities Services Introduction to Emergency Planning and Coordination at the UW

#### Facilities Services Role

#### Where do you fit into the big picture?

- FS employees are considered first responders in the case of a disaster on campus
- In the event of a large scale event such as a major earthquake resources and support from the City of Seattle will be limited
- FS employees need to be trained and prepared to respond in order to support the overall recovery mission of the University of Washington

#### Personal Preparedness

- People are the foundation to our success
- A plan does not function without the people
- Do you have a 72hr kit in at work, in your car and at home?
- Who depends on you? Will your family be ok if you cannot get home for several days?
- Sign up for Personal Preparedness training Contact Siri McLean at <u>sirim@uw.edu</u> or 206.897.8081

## Business Academic & Research Continuity (BARC)

- BARC helps your department be prepared to function after a disaster through the use of Husky Ready
- What is your department's primary mission to the UW Community?
  - What are core processes that support that mission?
  - What are critical resources (people, information, equipment, facilities) needed to support these processes?
- What interdependencies exist between you and the rest of the world?
  - Who do you rely on and who relies on you?
- To learn more about using Husky Ready contact Scott Preston at scottpre@uw.edu or 206.897.1882

### Emergency Evacuation & Operations Plan (EEOP)

- Building Specific Plan
- Purpose: establish procedures and duties, promote planning and conduct training for staff in each building as required by Seattle Fire Code and the UW All-Hazards Emergency Management Plan

#### **EEOP Table of Contents**

- Section 1: Purpose, Scope, and Emergency Resources
- Section 2: Building Evacuation, Duties & Responsibilities
- Section 3: Specific Emergency Procedures
- Section 4: Appendices
- Section 5: Checklists, Forms, Floor Plans & Maps

#### **EEOP Next Steps**

- Each Facilities Services shop location on campus has an EEOP complete with Evacuation Directors and Wardens trained and ready to respond
- Schedule an earthquake or fire drill every six months
- Every building occupant must have the opportunity to practice these drills so when a real event happens, they will be ready

#### Fire Drills

- All fire drills need to be coordinated with EH&S and the FS Alarms Shop in advance
- Contact Darren Branum with EH&S at dlbranum@uw.edu or 206.616.5519

AND

Contact Don Hulse with the FS Fire Shop at dhulse@uw.edu or 206.685.1471

#### Earthquake Drills

- All earthquake drills need to be coordinated with EH&S in advance
- Must include a Drop, Cover & Hold segment before evacuating the building
- Always remember when evacuating a building to take all your personal belongings with you as it may be hours or days before it is safe to reenter your building
- Contact Darren Branum with EH&S at dlbranum@uw.edu or 206.616.5519

#### **EEOP Yearly Update**

- Every EEOP should be reviewed once a year
- Employee roster pages and employee first-aid training dates need to be maintained
- A log of drills conducted throughout the year and post drill reports should be reviewed with the evacuation team
- Evacuation Training with EH&S is required every year for Evacuation Directors and Wardens

#### Unit Response Center

**Personal Preparedness** 

#### Unit Response Center (URC)

#### Unit Response Center (URC)

- Coordinates the response and recovery activities of all FS departments
- Currently located in the FS Admin Building (future URC in the new FS Training Center)
- When activated, the role of the FS URC is to coordinate with the UW Emergency Operations Center (EOC). Update campus status, allocate resources and respond as needed.

#### FS Department URC Locations

- FS Admin Building (FABS, ORR)
- Power Plant (CE&O)
- Plant Operations (CE&O)
- Plant Services (M&A)
- University Transportation Center (TS)
- Transportation Services Fleet Services (TS)
- Northlake Building (BSD)

#### UW All-Hazards Emergency Management Plan

- Developed by the Emergency Management Planning Committee (EMPC)
- Maintained by UW Emergency Management
- Provides the management structure, key responsibilities, emergency assignments, and general procedures to follow during and immediately after an emergency
- Priorities: protect lives, property and the environment

#### **Emergency Operations Center (EOC)**

A designated facility where officials meet face to face to coordinate a jurisdiction's overall disaster response and recovery efforts in support of field operations.

#### COORDINATION

#### **Emergency Operations Center**

- A physical location (UW Tower, C-140)
- Staffed with personnel trained for and authorized to represent their department or unit
- Equipped with tools for communicating with the incident site and obtaining resources
- Activated to support on-scene response during and escalating incident
- Main EOC switchboard when activated 206.897.8800
