APPENDIX

OBJECTIVE:

The principal objective of the Project Neutral is to assist in the resolution of disputes without resort to litigation. If this objective is achieved, such disputes can be resolved promptly with minimum expense, and with minimum disruption to the administration and performance of the Work. It is not intended for the University or Contractor to abandon their responsibility to amicably and fairly settle their differences without resorting to the services of a Project Neutral.

RESPONSIBILITY OF THE PROJECT NEUTRAL

The Project Neutral’s responsibility is to facilitate the prompt and fair resolution of issues and disputes between Contractor and the University arising from performance of the Project work in an informal manner. The Project Neutral shall strive, whenever possible, to act as a mediator, seeking mutual agreement.

Primarily, the Project Neutral will consider disputes involving interpretation of the Plans, Specifications, delays, acceleration of the Work, scheduling, classification of extra work, changed conditions, design changes and other similar matters.

The Project Neutral will refrain from giving any advice or consultative services to either party. The Project Neutral will act in a completely independent and neutral manner and will have no consultative or business connections with either party during the course of his/her service as the Project Neutral.

If a DRB is convened at any time during the Project, the Project Neutral will serve as Chairperson of the DRB unless the parties otherwise agree.

INFORMAL GUIDANCE MEETINGS

The Project Neutral will be available on relatively short notice to meet with the parties to provide informal non-binding guidance regarding the dispute. The meeting(s) will be informal discussions with input and comment from the parties. The Project Neutral will provide guidance orally. No written recommendation will be made.

CONSTRUCTION PROGRESS MEETINGS

The Project Neutral will attend and participate in one construction progress meeting each month at or near the Work site for the duration of the Project during which the Owner and Contractor shall conduct a round table discussion about the project, as described below. The Project Neutral may participate in and ask questions regarding the discussion and, if requested, provide informal guidance for resolution of disputes.

The agenda for each round table discussion will generally be as follows:

(1) Opening remarks by the University’s Representative.
(2) A description by Contractor of Work accomplished since the last meeting; the current status of the work, and a forecast for the coming period.

(3) An outline, by Contractor, of potential problems and description of proposed solutions.

(4) An outline, by the University’s Project Architect or Engineer, of the status of the Work.

(5) A brief description of potential claims or disputes known to the parties.

(6) A summary of the status of past disputes and claims.

If requested by either the Owner or Contractor, the Contractor and its representatives will attend additional meetings with the Project Neutral, along with representatives from the Owner and the University’s Project Architect or Engineer.

The Contractor will record and distribute minutes of all meetings and circulate them for revision and/or approval by all concerned.

The Contractor will provide a site tour to the Project Neutral before or after each monthly construction progress meeting. The site tour will cover all active segments of the Work, the Project Neutral being accompanied by both University and Contractor personnel.
