

April 2023

CONSTRUCTION BULLETIN

UW Medicine Behavioral Health Teaching Facility

1550 N 115th St. Seattle, WA 98133

Rendering of BHTF, SRG Partnership

The purpose of this bulletin is to inform staff, patients, visitors and the neighbors close to the University of Washington Medical Center Northwest campus about the Behavioral Health Teaching Facility (BHTF) construction project. This bulletin will be published quarterly during the design phase and monthly during the construction phase. Please see the webpage for more information about the project, construction logistics and the milestone schedule. <https://facilities.uw.edu/projects/behavioral-health-teaching-facility>

CONSTRUCTION ACTIVITIES

The project continues to track towards completing the final façade finishes by June 2023. Odors from roofing may be present towards the second half of the month due to final roofing activities being completed. Interior finishes such as paint, tile and cabinetry will be installed as well throughout the month. Construction activities crossing North 120th street will be starting at the end of April. Flaggers will be present during any road closures and the road will be fully open during off hours.

When needed, crews may work on Saturdays between 9am and 6pm in accordance with the approved Construction Management Plan. We appreciate your patience with potential traffic and noise disturbance.

The photo below was taken on March 14th showing the first of the medical bed headwalls in the building.

If you have any questions about the upcoming work at UWMC Northwest, please feel free to contact us and we would be glad to provide any additional information.

PROJECT OVERVIEW

The new Behavioral Health Teaching Facility will be a one-of-a-kind fully integrated welcoming and healing environment for individuals struggling with serious physical and behavioral health problems. The building will support a full continuum of clinical services ranging from effective medication management and psychotherapies to state-of-the art neuromodulation treatments, medical and surgical care for individuals with medical and behavioral health disorders. The building will also become the home for an interdisciplinary training and workforce development program that is focused on preparing and supporting the next generation of behavioral health providers for Washington State.
