CONSTRUCTION BULLETIN

UW Medicine Behavioral Health Teaching Facility

1550 N 115th St. Seattle, WA 98133

Rendering of BHTF, SRG Partnership

The purpose of this bulletin is to inform staff, patients, visitors and the neighbors close to the University of Washington Medical Center Northwest campus about the Behavioral Health Teaching Facility (BHTF) construction project. This bulletin will be published quarterly during the design phase and monthly during the construction phase. Please see the webpage for more information about the project, construction logistics and the milestone schedule. <https://facilities.uw.edu/projects/behavioral-health-teaching-facility>

CONSTRUCTION ACTIVITIES

The exterior facade of the building is tracking to be completed by Summer of 2023. Interior finishes such as paint, tile, flooring and cabinetry are progressing. Site improvements to the campus loop road and lots C and D have commenced, along with the improvements along 120th St, and will continue through the summer months. Flaggers will be present during any road closures and the road will be fully open during off hours.

When needed, crews may work on Saturdays between 9am and 6pm in accordance with the approved Construction Management Plan. We appreciate your patience with potential traffic and noise disturbance.

The photos below were taken on May 2nd (left) and May 9th (right) and show the completion of the enclosure of the building following the removal of the manhoist.

PROJECT OVERVIEW

The new Behavioral Health Teaching Facility will be a one-of-a-kind fully integrated welcoming and healing environment for individuals struggling with serious physical and behavioral health problems. The building will support a full continuum of clinical services ranging from effective medication management and psychotherapies to state-of-the-art neuromodulation treatments, medical and surgical care for individuals with medical and behavioral health disorders. The building will also become the home for an interdisciplinary training and workforce development program that is focused on preparing and supporting the next generation of behavioral health providers for Washington State.

If you have any questions about the upcoming work at UWMC Northwest, please feel free to contact us and we would be glad to provide any additional information.
