

UNIVERSITY OF WASHINGTON ARCHITECTURAL COMMISSION
3/14/2022

Project Title	ICA Basketball Operations and H2P Center	CPD Project # 206829
Project Manager	Harry Fuller – Project Delivery Group, UW Facilities	
Design Team	Contractor – Mortenson Architect - Gensler Landscape Architect – Walker Macy	
Project Phase	Project Definition Phase – Campus Context & Site Assessment	
Goals & Objectives	<ol style="list-style-type: none">1. Provide a first-class home for men’s and women’s basketball with 24/7 practice courts.2. Renovate and expand the Health & High Performance Center.3. Consolidate services to better serve the overall performance of our student-athletes and the University’s commitment to Title IX.4. Be cost effective, with a look and feel in alignment with recent ICA capital projects.	
Project Scope	New Basketball Training/Operations/High Performance building providing practice court(s), locker rooms, meeting rooms, coaches and support staff offices, recruiting lounge, and other spaces associated with the two basketball programs. Along with a renovation of the weight room and Legends Center in Graves Annex, other desired program elements include new support facilities for basketball and the other Olympic sport programs. These programs include athletic training, strength and conditioning, sports medicine and rehabilitation, and nutrition.
