

CONSTRUCTION BULLETIN

T-WING RENOVATION JULY 2024

Highlights

- Installed grid and ceiling tile in Molecular Biolab.
- Completed Library Testing Center abatement.
- Demoed Level 4 lecture hall ceilings.
- Started Sim Suite containment and negative pressure enclosure.

Project Overview

The vision for health science education at the University of Washington is dependent upon creating effective spaces that encourages formal and informal interaction among students, faculty, and staff from all six health science schools.

This project will invest in the critical renovation scopes that advance inter-professional instruction and educational technologies essential to meeting current and future accreditation for each of the six health sciences schools.
