

CONSTRUCTION BULLETIN

T-WING RENOVATION

MAY 2024

Project Overview

The vision for health science education at the University of Washington is dependent upon creating effective spaces that encourages formal and informal interaction among students, faculty, and staff from all six health science schools.

This project will invest in the following critical renovation scopes that advance inter-professional instruction and educational technologies essential to meeting current and future accreditation for each of the six health sciences schools:

GATHER

Create student space that supports equity, wellbeing and an identity consistent with national reputation.

LEARN

Update classrooms and library spaces to support experiential, distance, and distributed learning.

INTERACT

Advance interprofessional instruction and educational technologies.

PRACTICE

Expand simulation to support interprofessional learning and accreditation.

SUPPORT

Update support spaces critical to interprofessional education.
