3.0 SPECIFICATIONS (NOT USED)

4.0 DRAWINGS (NOT USED)

5.0 QUESTIONS AND ANSWERS
The following questions and answers are provided as a matter of information to clarify issues raised about the Contract Documents. To the extent that changes to the Contract Documents are required based on the questions received, the Contract Documents have been modified as noted above in the Specifications and Drawings sections of this Addendum.

5.1 Question: Sheet E-24R Calls for the removal of 3-single conductor 500Kcmil cables. Sheet E-24 Calls for 6- single conductor 500Kcmil cables to be reinstalled in the same conduit? Is that a correct quantity? Also, at the walk through, it was mentioned that we were to replace the existing single conductor cables with 3-conuctor armored cable. Please confirm cable type.

Answer: The quantity listed on E-24 is correct. The capacitor bank will require 6-single conductors of 500KCMIL cables to be installed in the conduit. The existing capacitor bank is currently fed by 6-single conductor 500KCMIL cables that will need to be removed.

6.0 INFORMATION (NOT USED)
The following item(s) are provided as a matter of information only to all bidders and plan holders and do not modify or become part of the Contract Documents.
