NOTICE TO ALL POTENTIAL RESPONDENTS

The Request for Qualifications (RFQ) is modified as set forth in this Addendum. The original RFQ Documents and any previously issued addenda remain in full force and effect, except as modified by this Addendum, which is hereby made part of the RFQ. Respondent shall take this Addendum into consideration when preparing and submitting its Statement of Qualifications.

PROPOSAL SUBMITTAL DEADLINE

The submittal deadline remains the same and is not changed by this Addendum.

1.0 – RFQ

n/a

2.0 – QUESTIONS AND ANSWERS

The following questions and answers are provided as a matter of information to clarify issues raised about the RFQ. To the extent that changes to the RFQ are required based on the questions received, the RFQ has been modified as noted above in the RFQ section of this Addendum.

| 2.1  | **Question:** Can the UW confirm that the condition and capacity of MEP and Fire Suppression systems for the proposed uses for both projects (Learning Commons and Engineering Labs) are sufficient to handle these projects, or are there known significant upgrades that will need to be addressed?  
**Answer:** MEP scope has been identified for both Learning Commons and Engineering per their Predesign and Feasibility Study. The MEP scope will be verified and defined with the Design Builder during the Preliminary agreement phase. |
| 2.2  | **Question:** Likewise, does the UW know if connecting floor drains in the labs to the adjacent restroom sanitary sewer will be straightforward, or are those drains not capable of being used for any required by these labs?  
**Answer:** We do not. The MEP scope will be verified and defined with the Design Builder during the Preliminary agreement phase. |
| 2.3  | **Question:** With regard to furniture of FF&E for the Learning Commons (assuming that lab casework is included as part of the civil and mechanical lab design and cost), is furniture for the Learning Commons a part of the design and construction cost included in the scope? If it is, will the UW prescribe a list of preferred vendors prior to the submittal for this project? |
Answer: FF&E is identified in the Predesign as an included cost in the project. The UW will work with the Design Builder to determine the best method for procuring FF&E to meet the needs of the project. Options for FF&E procurement include the UW purchasing directly through State contracts or bidding or procurement through the design build contract. We are not releasing a list of preferred vendors.

3.0 – INFORMATION

The following item(s) are provided as a matter of information only to all respondents and do not modify or become part of the Contract Documents.
