| 2.1  | **Question:** What is the overall budget?  
**Answer:** The project cost is $6.5 million and all funding is in hand. |
| 2.2  | **Question:** How does UW foresee the phasing of the scopes of work?  
**Answer:** We see the Learning Commons work sequencing as laid out in the SNO/TLB/TIO Predesign Report Vol. 1 as defined on page 45 ‘Sequencing Timeline B’ as adjusted for our new start date. The Engineering scope will be sequenced along with retail space availability which we currently understand as being available January 2021 with a possible start date in the area adjacent to the University Bookstore only as summer 2020. |
| 2.3  | **Question:** Do you foresee need for Civil or Mechanical Engineers?  
**Answer:** No need for Civil; yes Mechanical will be needed. |
| 2.4  | **Question:** Please clarify if the goals for BEE inclusion on this project will be for:  
• an overall goal that includes small businesses only – including small women-owned business, small minority-owned business, etc.; or |

Last Revised: January 1, 2019
• an overall goal that includes any size of business, as long as it meets one of the categories listed; or
• Separate goals for SBE inclusion versus large diverse businesses?

Answer: Per Section 1.0 (pg. 18 of 20) Small Businesses are Business Equity Enterprises (BEE). The University organizational Inclusion goal is 20%, inclusive of 15% minority and women owned business. A project specific inclusion goal should reflect an inclusive culture that truly represents opportunities, goes beyond standard efforts, and is authentic practice in any aspect of the project.
