1.0 NOTICE TO ALL BIDDERS AND PLANHOLDERS

The Contract Documents for the above-referenced Project are modified as set forth in this Addendum. The original Contract Documents and any previously issued addenda remain in full force and effect, except as modified by this Addendum, which is hereby made part of the Contract Documents. Bidder shall take this Addendum into consideration when preparing and submitting a bid, and shall acknowledge receipt of this Addendum in the space provided on the Bid Form.

2.0 BID SUBMITTAL DEADLINE

The bid submittal deadline remains the same and is not changed by this Addendum.

### 5.0 QUESTIONS AND ANSWERS

The following questions and answers are provided as a matter of information to clarify issues raised about the Contract Documents. To the extent that changes to the Contract Documents are required based on the questions received, the Contract Documents have been modified as noted above in the Specifications and Drawings sections of this Addendum.

<table>
<thead>
<tr>
<th>Item</th>
<th>Questions and Answers</th>
</tr>
</thead>
</table>
| 5.1  | Question: Please provide intent of in-floor receptacles. Please confirm if the intent is to place poke through in this location or if they are to be floor boxes. If poke through provide information on space below. If floor boxes, please provide product information.  
Answer: Refer to Addendum 3 item 4.17 above. |
## ADDENDUM #3
Date of Addendum: December 8, 2020
Page 5 of 6

| 5.2 | Question: Project Description and Demo notes indicate radar Imaging of PT slabs at penetrations, coring, concrete demo is required. Sheet A7.01, under the PT Concrete Structural Notes, indicates scanning of top and bottom of slab is required for penetrations. Is top and bottom scanning required at all concrete demo and coring as well as the new ductwork penetration? Some areas are outside of the work area that would need top/bottom of slab scanning. Please confirm specific requirements. Also please confirm Radar for all these areas is adequate and X-Ray is not needed.  
Answer: The scanning method used is a means and method determination to be made by the Contractor. Refer to STRUCTURAL NOTES on sheet A7.01 and Addendum 3 item 4.12 above. |
| 5.3 | Question: Is there a Testing and Inspection Schedule/Matrix available for review which outlines specific test required and timeframes?  
Answer: A testing and inspection schedule is not available. |
| 5.4 | Question: Is there a Signage Schedule available for review? Drawings mention signage to code but no specifics.  
Answer: Refer to item 3.1 above. |
| 5.5 | Question: Please confirm what Delegated Design Submittal is required for this project. Thank You  
Answer: If required, Delegated Design Submittals are noted in Part 1 – General of each relevant specification section. Refer to the Project Manual. |
| 5.6 | Question: Will there be an area designated for salvage material storage (ACT Ceiling Panels, Water Heater, Emergency Shower, etc.)?  
Answer: The contractor laydown areas indicated on the SITE ACCESS PLAN on sheet T0.01 are available for salvage material storage. |
| 5.7 | Question: No metal fabrication field painting or field welding was noted in the plans. Please verify if these are requirements for any scopes.  
Answer: Field vs Shop welding or finishing is a means and methods determination. |
5.8 Question: Can you confirm the Contractors role for the install of the OFCI Laboratory Fume Hoods? Will the supplier set these in-place and final connections be completed by the Mech and Elec contactors? Or are these to be fully installed by the contractor? Some mechanical contractors have concerns about support requirements for these fume hood. I have not seen this outlined in the plans.

Answer: Refer to Addendum 2 items 6.1, 6.2 & 6.3 for additional information on the OFCI items. The fume hood vendor will deliver the Laboratory Fume Hoods to the primary work area.

5.9 Question: Re: 09 21 16 1.6A Gypsum manufacturers have stated that the finishing of their product would not fall under their scope of warranty. The GWB products are not intended to be left as bare product. Should the 20-year finish warranty fall under the painter’s scope?

Answer: The 20-year Manufacturer’s Finish Warranty noted applies only to panels exposed to weather.

5.10 Question: Note #8, 9, 10, & 13 / P2.01 – All plumbing fixture and piping inside the Trace Metal Analysis Lab is to be non-metallic. For Compressed Air and Vacuum piping there is no non-metallic pipe material in the spec. Can you please confirm what material has to be used for non-metallic Compressed Air and Vacuum piping?

Answer: Compressed air and vacuum piping is concealed within the wall cavity and not subject to the notes #8, 9, 10, & 13 / P2.01 referenced.

5.11 Question: Can you provide a stipulated allowance for gypsum wall board patching/repair as the notes in the plans notes and detail are vague in terms of scope?

Answer: An allowance amount cannot be provided. Refer to Addendum 3 items 4.6, 4.7, 4.8 & 4.10 above.

6.0 INFORMATION
The following item(s) are provided as a matter of information only to all bidders and plan holders and do not modify or become part of the Contract Documents.

END OF ADDENDUM
DEMO PLAN NOTES

1. ITEMS NOTED FOR REMOVAL ARE INDICATED TO ESTABLISH GENERAL SCOPE OF DEMO. CONTRACTOR TO FULLY VERIFY EXISTING CONDITIONS AND SHALL NOTIFY THE ARCHITECT PRIOR TO DEMO OF ANY ITEMS NOT INDICATED ON THE PLANS THAT MAY AFFECT THE WORK.

2. ITEMS NOTED FOR REMOVAL THAT ARE NOT INDICATED AS DEMOED OR ARE INDICATED AS TO REMAIN ARE THE RESPONSIBILITY OF THE CONTRACTOR AND SHALL BE ENSURED TO BE DEMOED OR REMOVED WITHIN THE MATERIALS AND RESOURCES AT NO COST TO THE OWNER.

3. WHERE REMOVINGFinish flooring, includes removal of existing resilient base, finish and underlayment as noted.

4. EXISTING CONDITIONS ARE COMPILED FROM RECORD DRAWINGS. CONTRACTOR TO FIELD VERIFY EXISTING CONDITIONS AND SHALL NOTIFY THE ARCHITECT PRIOR TO DEMO OF ANY ITEMS NOT INDICATED THAT MAY AFFECT THE WORK.

5. EXISTING CONCRETE SHALL BE SCANNED TO LOCATE EXISTING REINFORCEMENT AT LOCATIONS OF ANCHORAGE AND SLAB REMOVAL. EXISTING REINFORCEMENT IS NOT TO BE ALTERED.

6. CONTRACTOR TO MAINTAIN AIR BALANCE AND NEGATIVE PRESSURE FOR ROOMS WHERE REPAIR REQUIRED OR REPLACED WITH LIKE MATERIALS AND ASSEMBLED AT NO COST TO THE ARCHITECT.

7. CONTRACTOR TO FIELD VERIFY EXISTING CONDITIONS AND SHALL NOTIFY THE ARCHITECT PRIOR TO DEMO OF ANY ITEMS NOT INDICATED ON THE PLANS THAT MAY AFFECT THE WORK.

REPAIR ACTIVITIES. THIS APPLIES TO ADJACENT LAB AREAS, AND VIVARIUMS.

AFFECT THE WORK.

REQUIRED SCOPE.

OUTSIDE OF THE PRIMARY WORK AREA THAT MAY BE AFFECTED BY CONSTRUCTION ACTIVITIES. THIS APPLIES TO ADJACENT LAB AREAS, AND VIVARIUMS.

**DEMO PLAN NOTES**

1. **ITEMS NOTED FOR REMOVAL** are indicated to establish general scope of demo. See general notes.

2. **ANY ITEMS DEMOLISHED** that are not indicated as demoed or are indicated as (E) TO REMAIN are the responsibility of the contractor and shall be repaired or replaced with like materials and assemblies at no cost to the owner.

3. **Existing condition** is compiled from record drawings. Contractor to field verify existing conditions and shall notify the architect prior to demolition of any items not indicated that may affect the work.

4. **Existing conditions** and changes are reflected in revised drawings. Contractor to field verify conditions, and shall notify the architect prior to demolition of any items not indicated that may affect the work.

5. **Removal of finish flooring** includes, removal of existing resilient base.

6. **Contractor** to minimize structural vibration to the greatest extent possible, and shall coordinate with the owner regarding potential impacts to adjacent occupied spaces. Work may be performed outside of building hours or using less disruptive measures to accomplish this.

7. **Contractor to field verify existing conditions** and shall notify the architect prior to demolition of any items not indicated that may affect the work.

8. **Contractor** to maintain air balance and negative pressure for rooms outside of the primary work area that may be affected by construction activities. This applies to adjacent, non-adjacent, and non-common areas.

9. **Repaired or replaced materials and assemblies** at no cost to the owner.

10. **Contractor to field verify existing conditions, and shall notify the architect prior to demolition of any items not indicated that may affect the work.**

11. **Contractor** to maintain air balance and negative pressure for rooms outside of the primary work area that may be affected by construction activities. This applies to adjacent, non-adjacent, and non-common areas.

12. **Repaired or replaced materials and assemblies** at no cost to the owner.
