<td>Question: Starting on E3.05 the emergency lights are labeled as F1 fixtures (qty 62), prior to this drawing the Emergency lights were all labeled F2. I am wondering if all these emergency fixtures should be relabeled as F2s or if the F1 designations is correct. Also on E3.02 there are a few non-emergency lights labelled F2 (between gridline 11 &amp; 12) should these be F1s? Answer: See revised drawing Sheets E3.02, E3.03, E3.05, E3.06, E3.07, and E3.08 attached to this Addendum.</td>
