1.0 – QUESTIONS AND ANSWERS

The following questions and answers are provided as a matter of information to clarify issues raised about the RFP. To the extent that changes to the RFP are required based on the questions received, the RFP has been modified as noted above in the RFP section of this Addendum.

Item	Questions and Answers
1.1	<p><u>Question:</u> Is there a more detailed program or sketch that is being considered for the clinic / infusion center that you may be able to share so we are able to do some preliminary analysis in advance of the interview?</p> <p><u>Answer:</u> No. A more detailed program, sketch or pre-design for the clinic/ infusion center has not been completed.</p>
1.2	<p><u>Question:</u> We understand there are various sensitive imaging spaces on level 1 below suites 250 & 260. Are all of the imaging areas operational and in use, are there particular hours of use including weekends?</p> <p><u>Answer:</u> Yes. The space below and above Suites 250 and 260 are occupied with operational UWMC clinics. During the Preliminary Agreement phase we will determine the best schedule to maintain clinical operations and execute the project. This likely will require some construction work to occur at night or on weekends.</p>
1.3	<p><u>Question:</u> Do you expect there may be any supplemental questions we should be considering prior to interviews perhaps after review of the RFP's?</p> <p><u>Answer:</u> Questions for the interview will be distributed on April 5. The last 15 minutes of the interview is reserved for open discussion and follow up questions</p>

	specific to the team's RFP. Follow up questions to the RFP will NOT be distributed in advance of the interview.
1.4	<p><u>Question:</u> At the northwest corner of level 2 there is an exterior door and stair. Is it accessible to the space for alternate construction access?</p> <p><u>Answer:</u> An interior picture of this door, located in Suite 260, is provided in slide 54 of the pre-submittal meeting presentation. This presentation was distributed in RFQ addendum #1. The door is currently used as an emergency exit. There is a possibility this door could be used for construction access, depending on the impact to clinical space on level 1.</p>
