5.1	<p>Question: Does the construction schedule consider material procurement lead times? We are being told 22 ga AEP span standard color could be 2 months to procure if not enough stock in hand. If the schedule needs to be more than 90 days from NTP, just curious how material procurement is going to be taken into consideration. Does UW have expectations for a hard completion time frame.</p> <p>Answer: The construction schedule assumed current lead times for material procurement and material availability as of the date listed on the specifications. See Specification Section 00 72 00 "General Conditions For Washington State Facility Construction, paragraph 3.05, A, item 7 & paragraph 3.05, B.</p>
