Enacted: 1991

NOTES:
MIOD = Major Institution Overlay District, the zoning classification for MIMPs.
37' allows a 2-story building; 50' allows a 3-story building; 105' allows a 7-story building.
~180,000 sq ft remaining under current MIMP (using City’s current methodology for calculating remaining square footage vs projects outlined in NWH’s MIMP). Assumes any existing square footage demolished for new construction can be added back to MIMP’s remaining square footage to achieve 210,000 sq ft allowed under current plan.
