Styrofoam Recycling

Kane Hall

Did you know UW Recycles Styrofoam?

Love it or hate it, Styrofoam is everywhere. UW Recycling provides a Styrofoam recycling program that gives this single-use material a second life!

How to Recycle

For large volumes:
Request Styrofoam bags from the Kane Hall Classroom Installation and Maintenance Team at 206-685-4640 or stop by room 035.

For small volumes:
Use your own clear plastic bags

Then, follow these easy steps:

1) Remove all tape and labels. Boxes must be empty, with no contamination (no ice packs, packing peanuts, paper, etc.).
2) Collect Styrofoam in bags and securely close.
3) Label bag with department name and box number.
4) Take bag to your building's loading dock and place by recycling containers.
5) Email recycle@uw.edu and let us know Styrofoam is ready for pick-up.
