

# Styrofoam Recycling

UW Tower

## Did you know UW Recycles Styrofoam?

*Love it or hate it, Styrofoam is everywhere. UW Recycling provides a Styrofoam recycling program that gives this single-use material a second life!*

### How to Recycle

#### **For large volumes:**

Request Styrofoam bags from UW Tower Mail & Receiving at 206-543-9591 or stop by their office located just inside the UW Tower loading dock.

#### **For small volumes:**

Use your own clear plastic bags

### Then, follow these easy steps:

- 1) Remove all tape and labels. Boxes must be empty, with no contamination (no ice packs, packing peanuts, paper, etc.).
- 2) Collect Styrofoam in bags and securely close.
- 3) Label bag with department name and box number.
- 4) Take bag to your building's loading dock and place by recycling containers.
- 5) Email [recycle@uw.edu](mailto:recycle@uw.edu) and let us know Styrofoam is ready for pick-up.
