

## ARCHITECTURAL COMMISSION

January 22, 2017

**PROJECT:** Population Health Facility

**PROJECT NUMBER:** 205430

**PROJECT MANAGERS:** Jeannie Natta and Lyndsey Cameron

**ACTION:** Information on Design Builder Selection and Site Review

**OBJECTIVE:** The facility will serve as a powerful catalyst for the University's new Population Health Initiative and be an idea laboratory and collaboration incubator.

### PROJECT DESCRIPTION:

The Population Health Facility will house the Institute for Health Metrics and Evaluation, the Department of Global Health, and elements of the School of Public Health, all of which will greatly benefit from close proximity. The facility will also provide central gathering spaces for faculty, students, staff, partners, and visitors from a wide range of disciplines across campus, the region, the nation, and the world to address important global health concerns.

**Project Budget** \$230,000,000

### Schedule

EIS	September 2016 – April 2017
Site Selection	September 2016 – April 2017
Design	February 2017 – June 2018
Construction	May 2018 – May 2020
Closeout	May 2020 – October 2020

**Project Delivery Method** Integrated Design-Build
