How to Find the Computer Training Lab in Plant Services Building, Room 122-J

The door to the computer training room is located across from the FS Stores counter on the first floor of the Plant Service Building, 4515 – 25th Ave NE. The Facilities Training Center has a separate door and is located at the southernmost end of the building. When you go past the Training Center door, the next door is to a glass-enclosed vestibule and stairwell; finally just past this door you will see a ramp before the loading dock area begins. Go up the ramp and open the door, you will see the front counter for the Facilities Stores. The door to the Computer Lab is on your immediate right.
