How to Export Shop Inventory Parts Data in order to do a Random Bin Check

- Create an AiM search in the Warehouse Bin Definition screen
  - WorkDesk > Inventory > Warehouse Bin Definition > Search
- Use the following criteria for the search:
  - 1 - Warehouse = MT###
  - 2 - Active = Yes
  - 3 - Include these numbered fields for the export report
  - 4 - Choose a sort order
- Execute the search
- You will then be able to export the resulting information to Excel.
