## Downloading the Duo Mobile App for Cellular Phones and Tablets:

The Duo Mobile App is available for most common cellular operating systems (Android, iPhone/iPad, Windows Phone and BlackBerry). Below are general instructions for downloading the App on an iPhone/iPad and an Android device. Unfortunately, there was no BlackBerry or Windows based device available to take screen shots from and test the download process. If assistance downloading the App is needed on these device types please contact [fs-tech@uw.edu](mailto:fs-tech@uw.edu) for assistance.

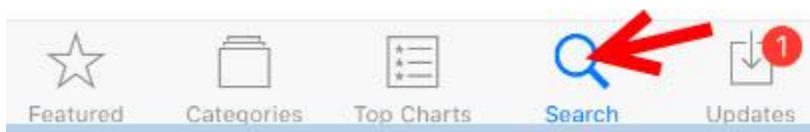

### Download Duo for iPhone/iPad:

**Note:** Instructions for the iPhone/iPad Duo download were done on an iPhone 6s. Other iPhone/iPad devices may have slightly different steps depending on the phone make, model and version of operating system. These steps however, should be similar on most iPhone/iPad Devices.

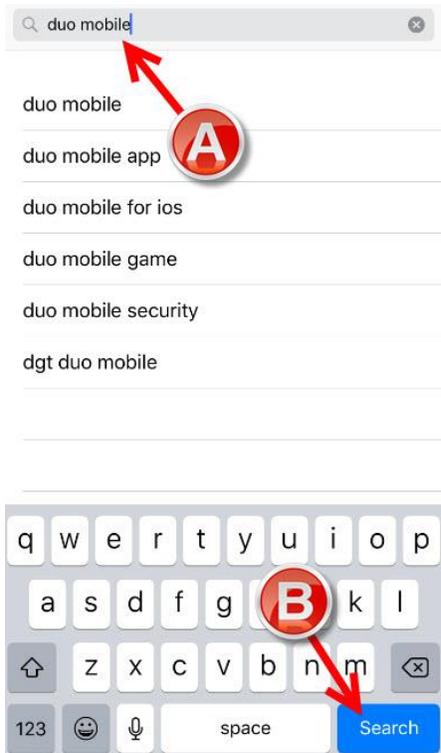

1. On your iPhone/iPad select the App Store.

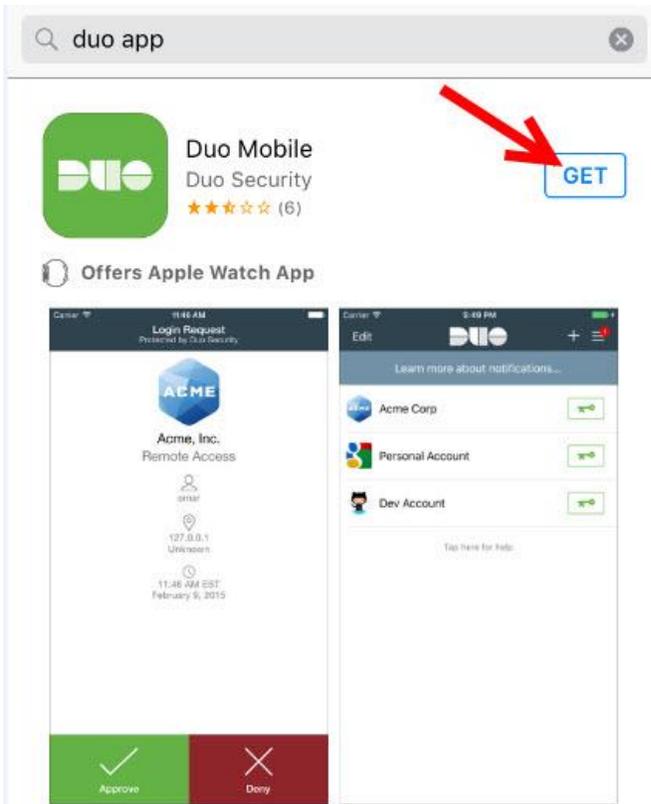

2. At the bottom to the screen, select Search.

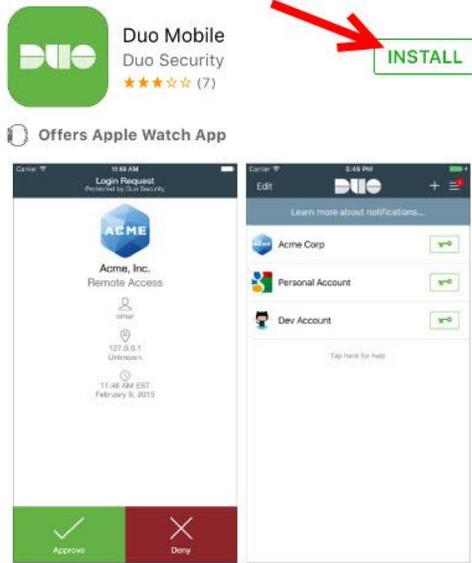

3. First type “Duo Mobile” in the search box then select search.

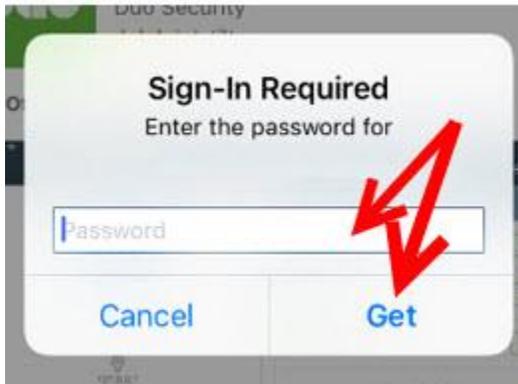

4. Select the word “GET” next to the Duo App.

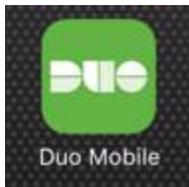

5. Select install.

6. If prompted Enter iTunes Password and select Get.

7. The App will download and there will now be a Duo Mobile icon somewhere on one of the home pages.

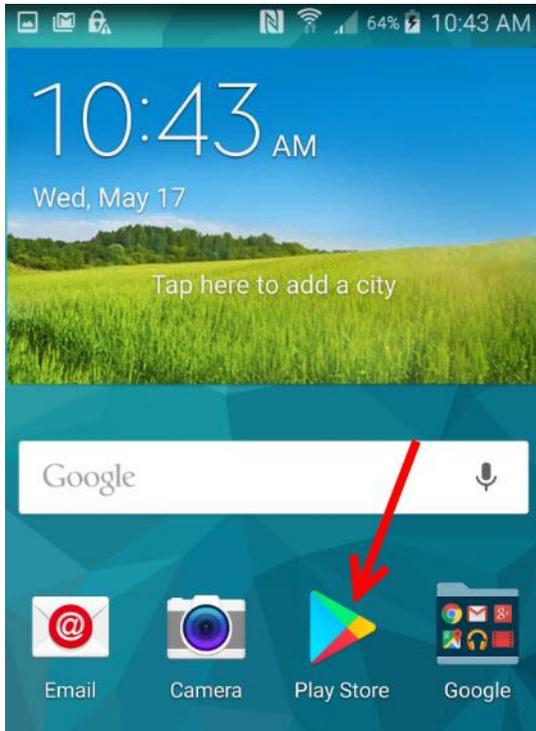

## **Skipping Payment Info for Free Apps Like Duo on iPhone/iPad**

1. Open Settings.
2. Select iTunes & App Stores.
3. Tap View Apple ID.
4. Select Payment Information.
5. Select None as the payment type.

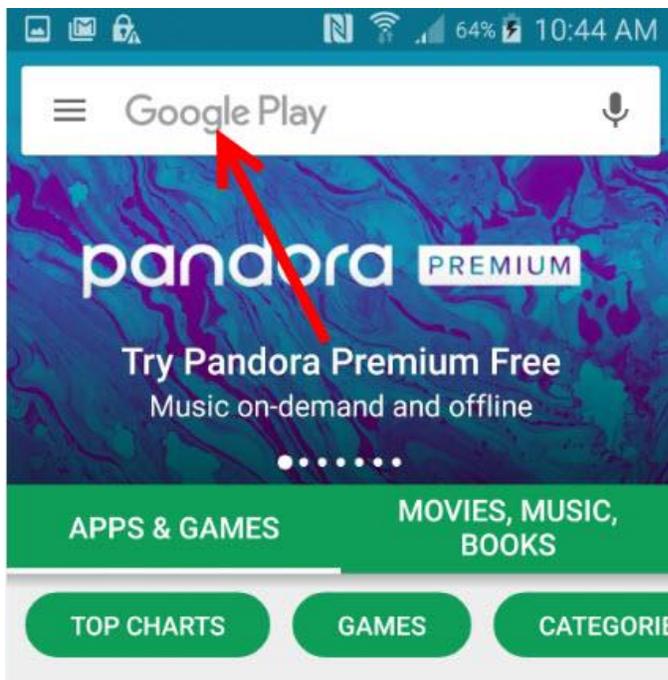

## Download Duo for Android:

**Note:** Instruction for the Android Duo download were done on a Samsung Galaxy S series phone. Other Android devices may have slightly different steps depending on the phone make, model and version of operating system. These steps however, should be similar on most Android Devices.

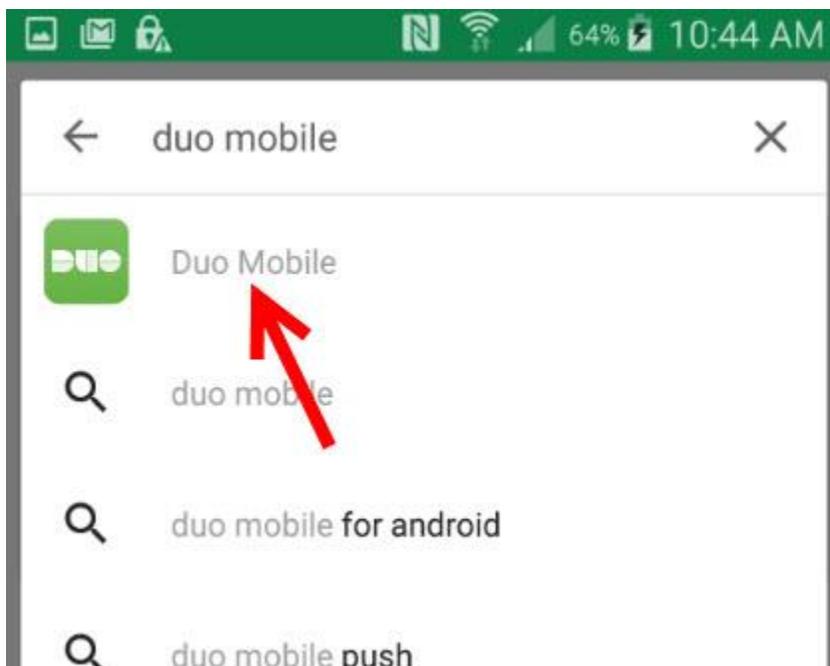

1. Select the "Play Store" from the home page or Applications menu.

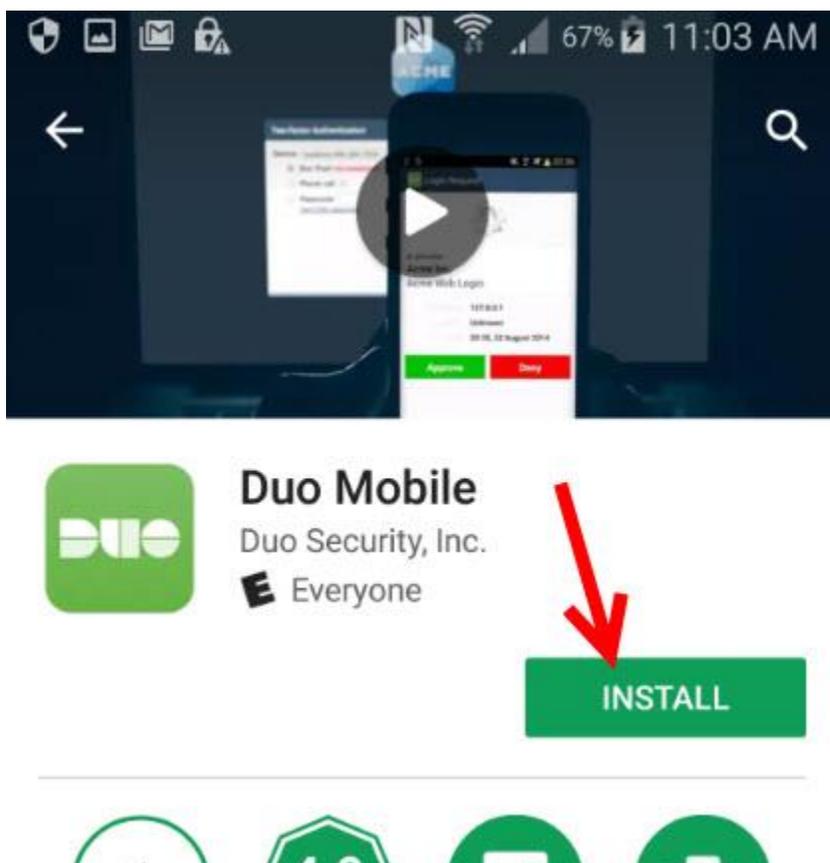

2. Enter "Duo Mobile" in the search box.

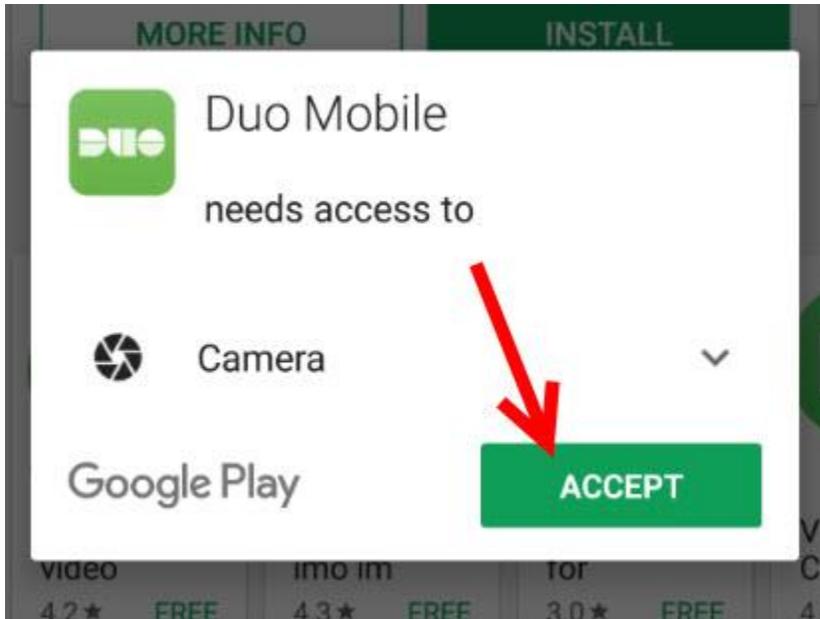

3. Tap on the Duo Mobile App.

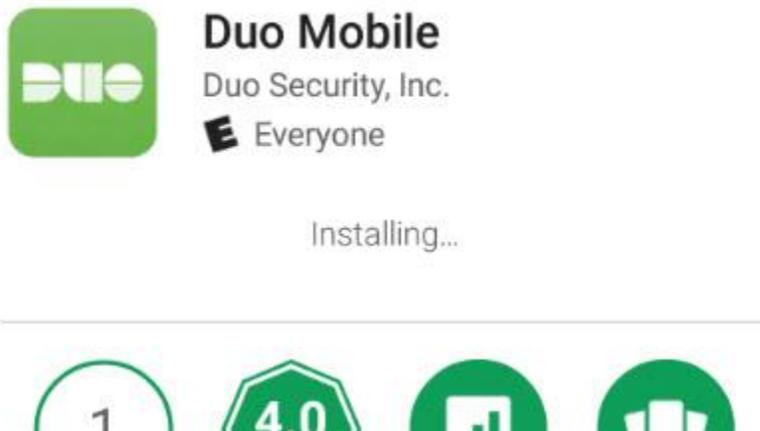

4. Tap Install.

5. Tap Accept.

6. App will download and install.

7. There will now be a Duo Mobile icon somewhere on one of the home pages.

## **Skipping Payment Info for Free Apps Like Duo on Android**

There should always be an option to 'skip' setting up payment when downloading free apps

## Setting up the Duo App on a Smartphone or Tablet:

1. Make sure the App is downloaded to the mobile device. See “Downloading the Duo Mobile App for Cellular Phones and Tablets” section on **page 5** for details on how to download the app.

**The following steps are best done in a web browser on a computer. If no computer is available the steps can be done in the mobile device’s web browser, but additional steps are required and there must be an email address set up on the mobile device:**

2. Open one of the supported browsers (Chrome, Firefox, Safari, Opera, and Internet Explorer 8 or later), and then go to the Two-Factor Authentication (2FA) Settings web page (<https://identity.uw.edu/2fa>).
3. Sign in with your UW NetID and password (If you have recently signed into another UW Application requiring a NetID login, this page may not come up and this step may be skipped automatically).

Please sign in.

UW NetID:

Password:

[Forgot your password?](#)

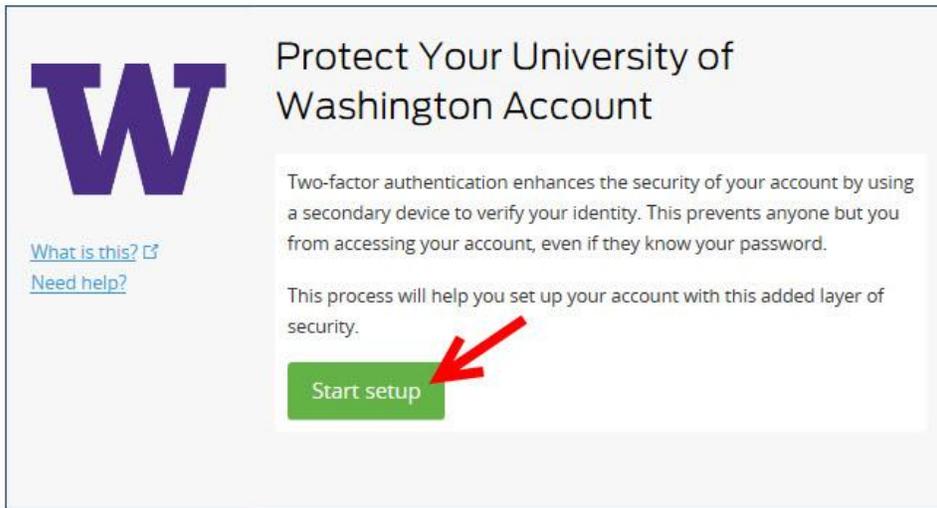

Sign in

4. If this is the first 2FA device on the account, read the brief information to “Protect Your University of Washington Account” and click Start setup. If a device is already set up on the account, sign in with one of the existing 2FA devices and click “Add another device.” See **page 22** for instructions for adding an additional mobile device to a 2FA account.

## Sign up for two-factor authentication (2FA)

Two-factor authentication (2FA) adds a layer of security when you sign in with your UW NetID.

### Step 1. Enroll a device

5. Select “Mobile Phone” (recommended), or “Tablet” if enrolling a tablet. Then click continue.

### Step 1. Enroll a device

6. Enter the valid US mobile phone number for the phone being enrolled. If enrolling a tablet, this step will be automatically skipped. Go to step 7.

## Sign up for two-factor authentication (2FA)

Two-factor authentication (2FA) adds a layer of security when you sign in with your UW NetID.

### Step 1. Enroll a device

W

Enter your phone number

United States

+1 **2065555555** ✓

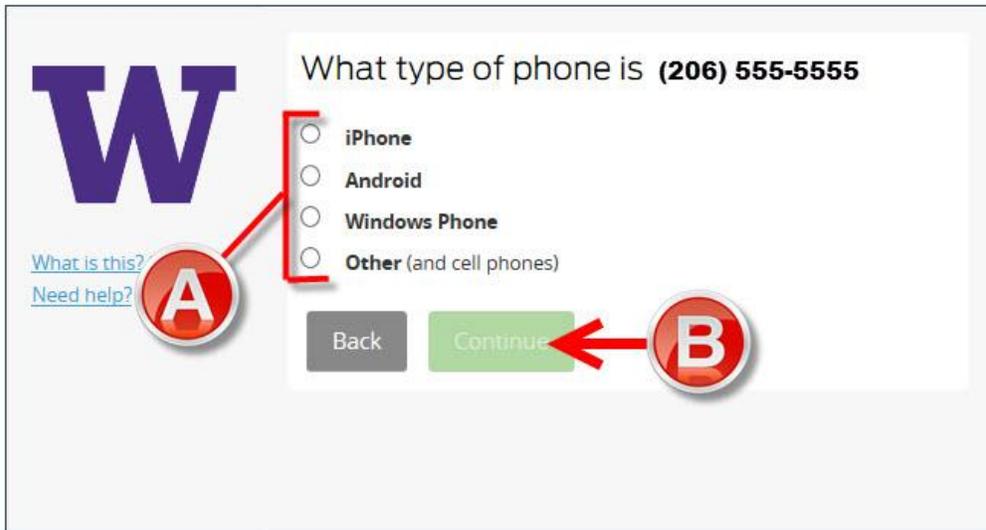

ex: (201) 234-5678

**(206) 555-5555** This is the correct number.

Back Continue

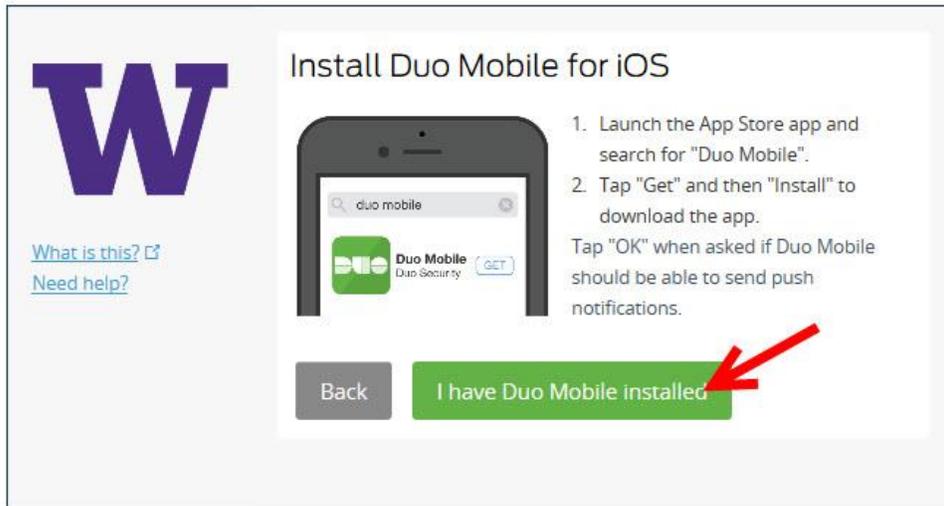

8. Select what type of smartphone is being enrolled (e.g. iPhone, Android) and then click Continue.

### Step 1. Enroll a device

9. Click "I have Duo Mobile installed."

### Step 1. Enroll a device

10. **Read Carefully—2 Options:**

**Option 1:** If steps 2 to 9 were completed in a web browser on a computer, and the user wishes to grant Duo Mobile access to the mobile device's camera follow instructions on **page 16**.

**OR**

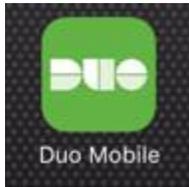

**Option 2:** If steps 2 to 9 were completed in a web browser on the mobile device being enrolled or if the user does not wish to grant Duo Mobile access to the mobile device's camera, follow instructions on **page 19**.

**Note:** Option 2 will only work if the user has an email account on the mobile device being enrolled.

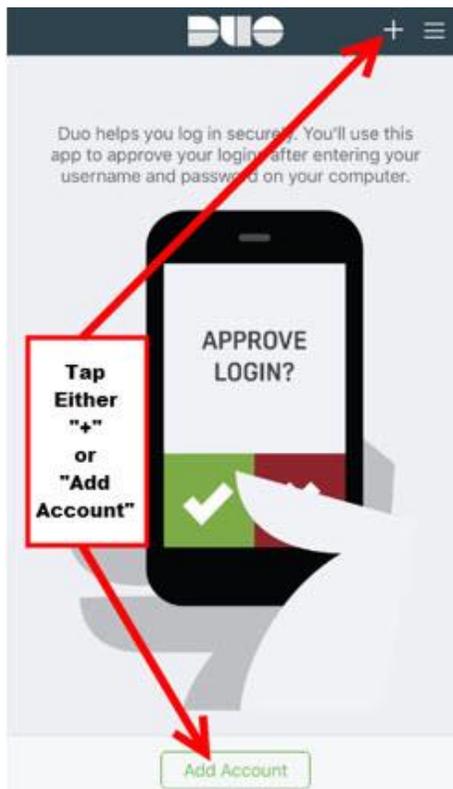

## Option #1 from page 15

The following steps are done with the Duo App on the mobile device:

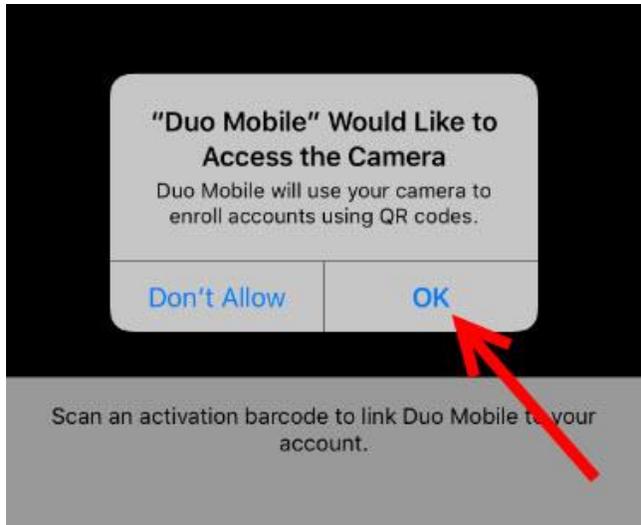

11. Open Duo Mobile on your mobile device.

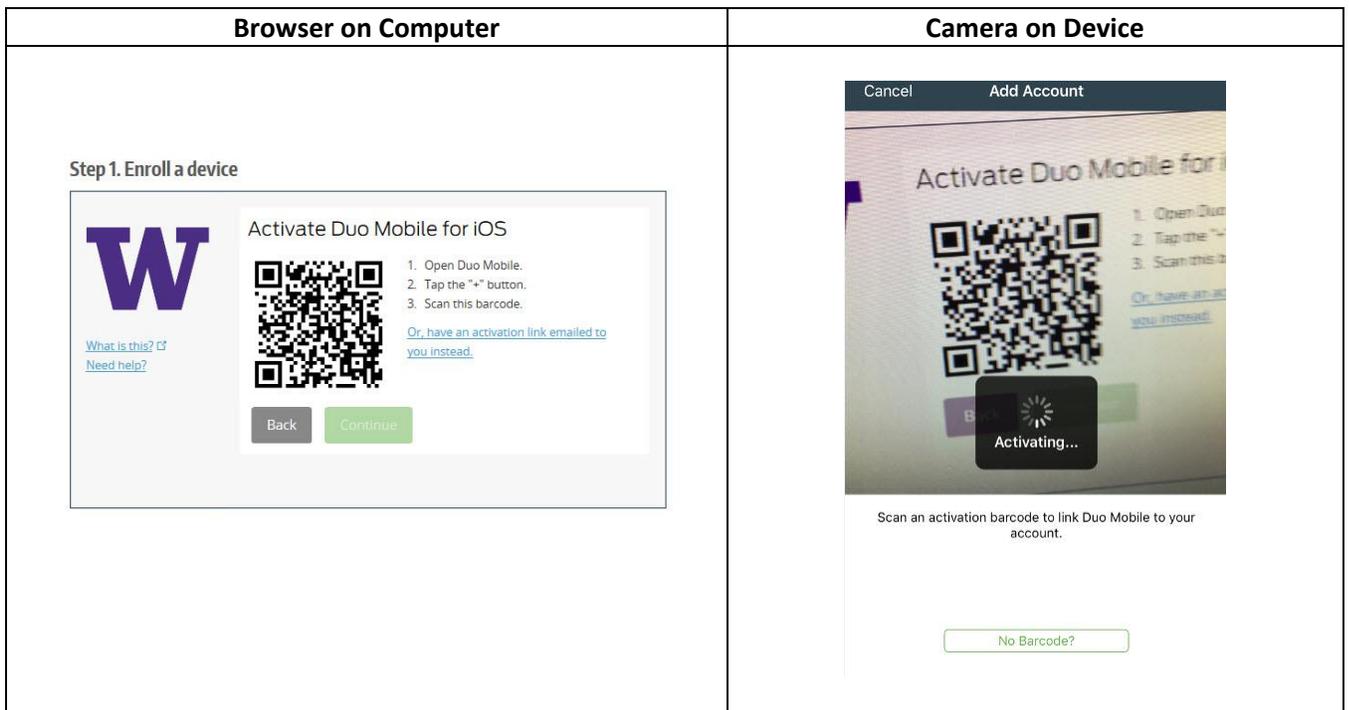

12. In Duo Mobile, tap "Add Account" or tap the "+" symbol in the upper right corner.

13. Click OK.

14. Point the camera on the mobile device at the QR code displayed in the browser on the computer. Duo Mobile will scan the QR code and add "University of Washington" to the list of accounts.

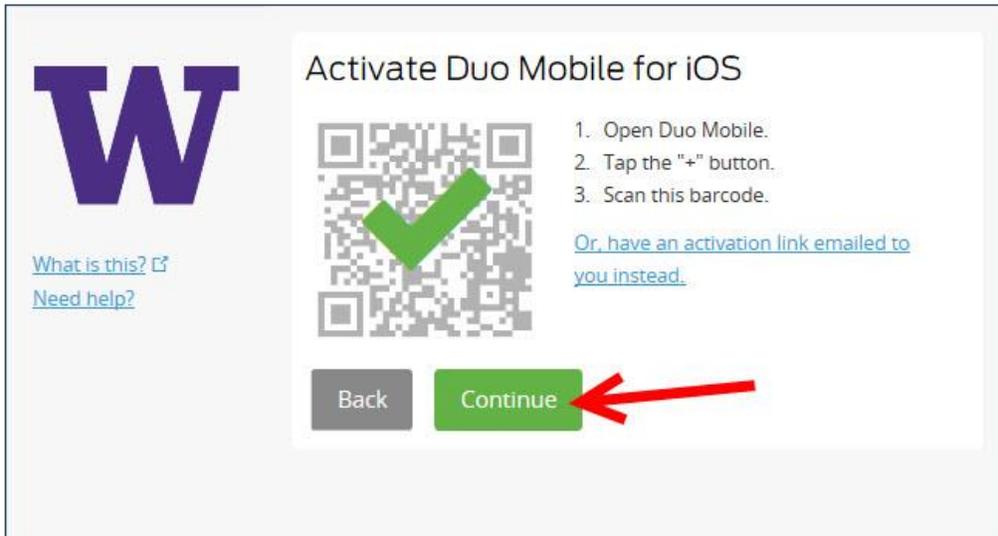

**The following steps are done in the web browser:**

15. Duo places a green check mark over the QR code to indicate success. Click Continue.

### Manage 2FA devices

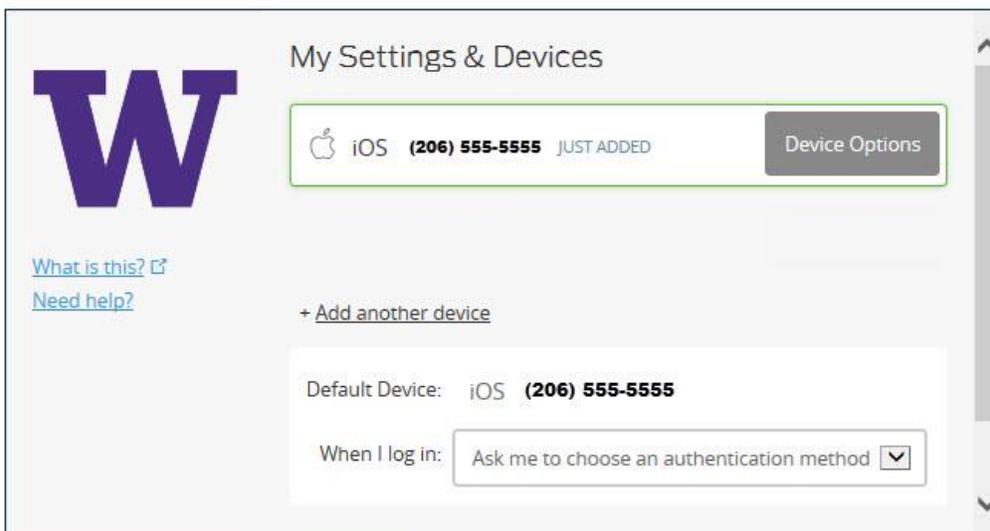

Sign in with Duo to manage your devices or add a new device.

16. Set up is complete. Duo will show “My Settings & Devices”. On this screen the device can be renamed or additional devices can be added as back up devices. If available adding an additional back up device is highly recommended. See **page 22** for instructions on adding additional devices.

### Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

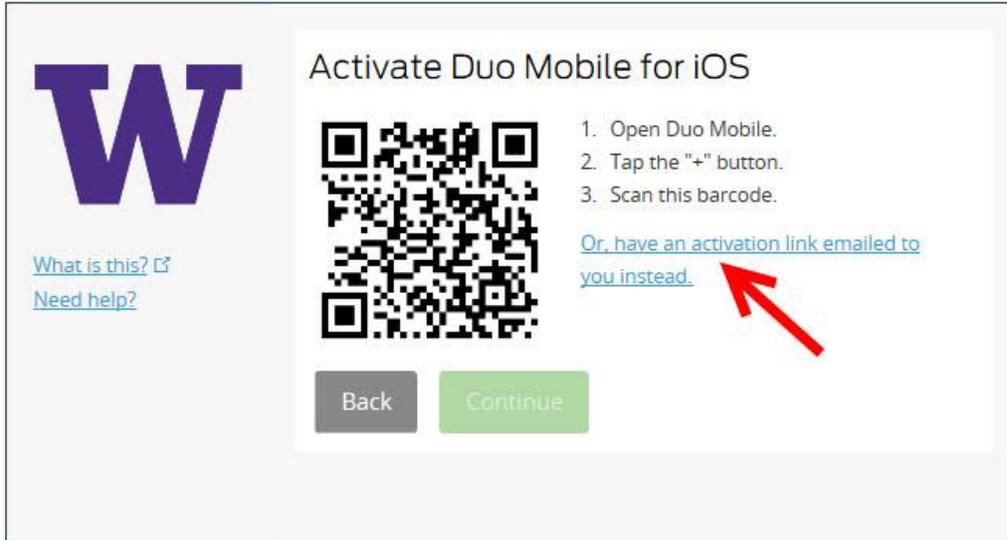

## Option #2 from page 15

The following steps are done in the web browser:

11. Select "Have an activation link emailed to you instead."

### Manage 2FA devices

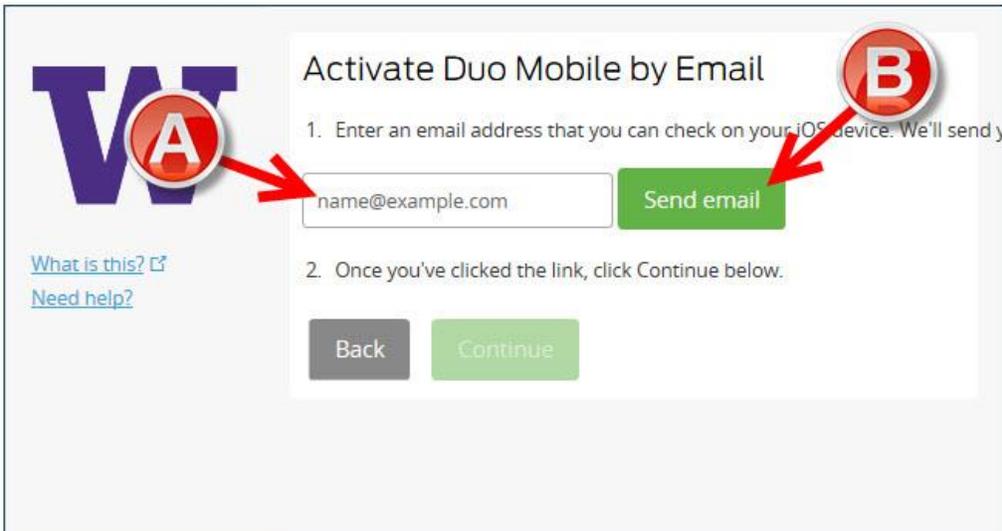

Sign in with Duo to manage your devices or add a new device.

12. Enter an email address that is active on the mobile device being enrolled, and select Send email.

### Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

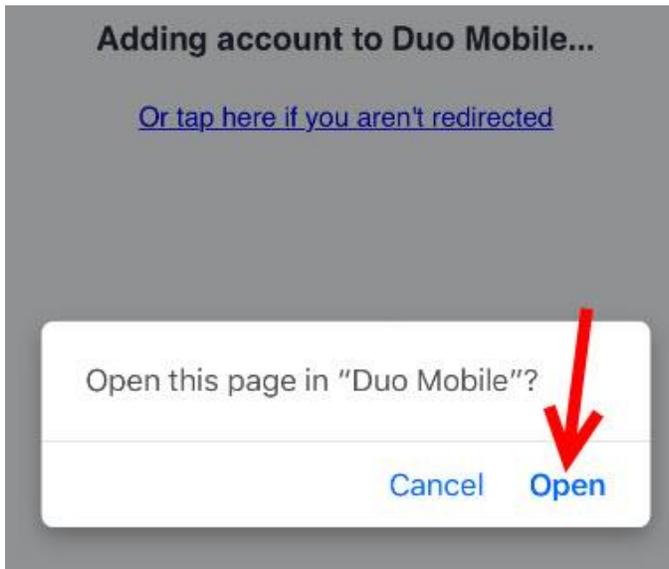

**The following steps are done in the email App on the mobile device:**

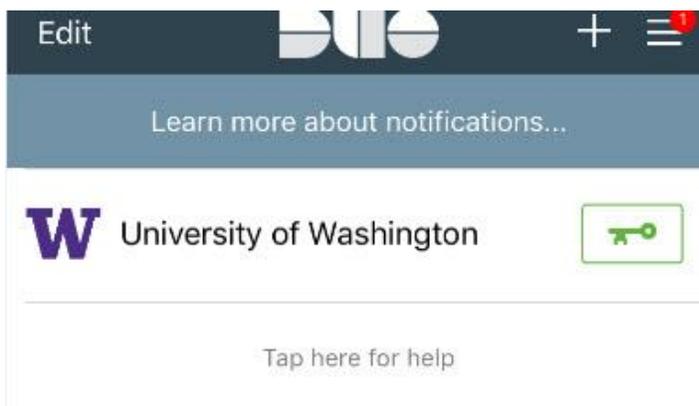

13. Duo will send a Duo Mobile activation link to the provided email address. On the mobile device open the email account provided to Duo, then open the email from “Duo Security” and tap the activation link in the email.

14. After clicking the link the user may get the message shown below. Tap Open.

15. Duo Mobile will open and “University of Washington” will be in the list of accounts.

The following steps are done in the web browser:

16. Click Continue.

## Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

Activate Duo Mobile by Email

1. Enter an email address that you can check on your iOS device. We'll send you a link to activate Duo Mobile.

name@example.com

2. Once you've clicked the link, click Continue below.

17. Set up is complete. Duo will show “My Settings & Devices”. On this screen the device can be renamed or additional devices can be added as back up devices. If available adding an additional back up device is highly recommended. See **page 22** for instructions on adding additional devices.

## Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

## Adding an Additional Device to a Duo Account:

The following steps are best done in a web browser on a computer. If no computer is available the steps can be done in the mobile device's web browser, but additional steps are required and there must be an email address set up on the mobile device:

1. Open one of the supported browsers (Chrome, Firefox, Safari, Opera, and Internet Explorer 8 or later), and then go to the Two-Factor Authentication (2FA) Settings web page (<https://identity.uw.edu/2fa>).
2. Sign in with your UW NetID and password (If you have recently signed into another UW Application requiring a NetID login, this page may not come up and this step may be automatically skipped).

Please sign in.

UW NetID:

Back Continue

12. When Duo detects a phone number has been entered, it will display a checkbox with the number that has been entered. Confirm this is the correct phone number by clicking the checkbox, or correct the number, if needed. Click Continue.

### Step 1. Enroll a device

The screenshot shows a web interface with a large purple 'W' logo on the left. Below the logo are links for 'What is this?' and 'Need help?'. The main heading is 'Enter your phone number'. A dropdown menu shows 'United States'. Below that, the number '+1 2065555555' is displayed with a green checkmark. An example number 'ex: (201) 234-5678' is shown below. A checkbox is next to the number '(206) 555-5555 This is the correct number.' At the bottom are 'Back' and 'Continue' buttons. Red callout circles 'A' and 'B' with arrows point to the checkbox and the 'Continue' button, respectively.

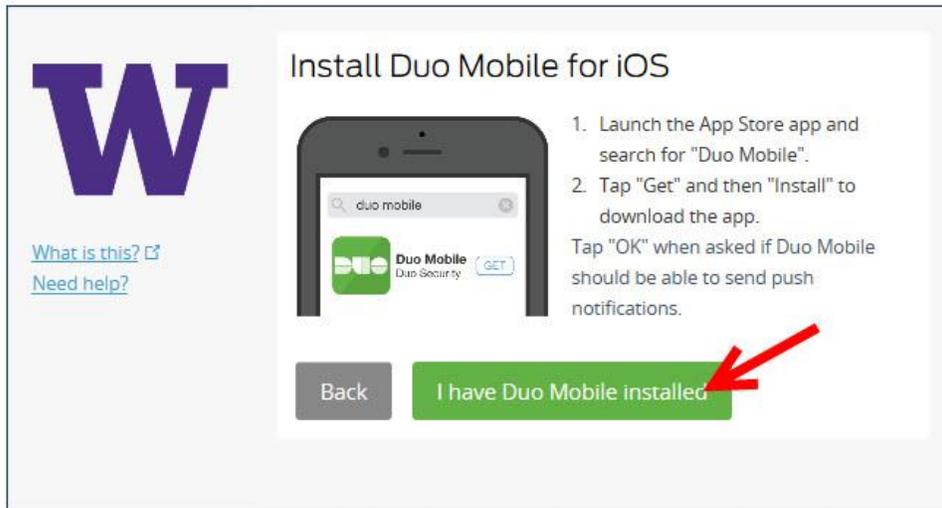

13. Select what type of smartphone is being enrolled (e.g. iPhone, Android) and then click Continue. Duo will provide brief instructions for installing Duo Mobile on your type of device.

### Step 1. Enroll a device

The screenshot shows a web interface with a large purple 'W' logo on the left. Below the logo are links for 'What is this?' and 'Need help?'. The main heading is 'What type of phone is (206) 555-5555'. There are four radio button options: 'iPhone', 'Android', 'Windows Phone', and 'Other (and cell phones)'. At the bottom are 'Back' and 'Continue' buttons. Red callout circles 'A' and 'B' with arrows point to the radio button options and the 'Continue' button, respectively.

14. Click "I have Duo Mobile installed."

### Step 1. Enroll a device

15. **Read Carefully—2 Options:**

**Option 1:** If steps 2 to 9 were completed in a web browser on a computer, and the user wishes to grant Duo Mobile access to the mobile device's camera follow instructions on **page 29**.

**OR**

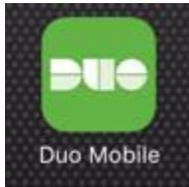

**Option 2:** If steps 2 to 9 were completed in a web browser on the mobile device being enrolled or if the user does not wish to grant Duo Mobile access to the mobile device's camera, follow instructions on **page 32**.

**Note:** Option 2 will only work if the user has an email account on the mobile device being enrolled.

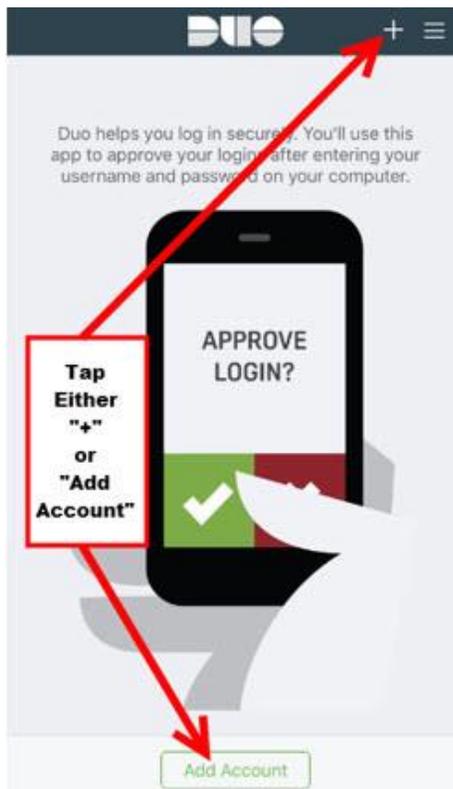

## Option #1 from page 28

The following steps are done on the mobile device:

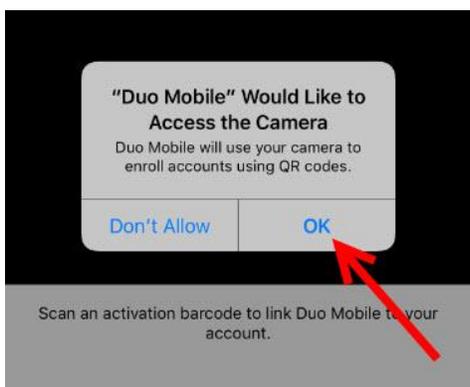

16. Open Duo Mobile on your mobile device.

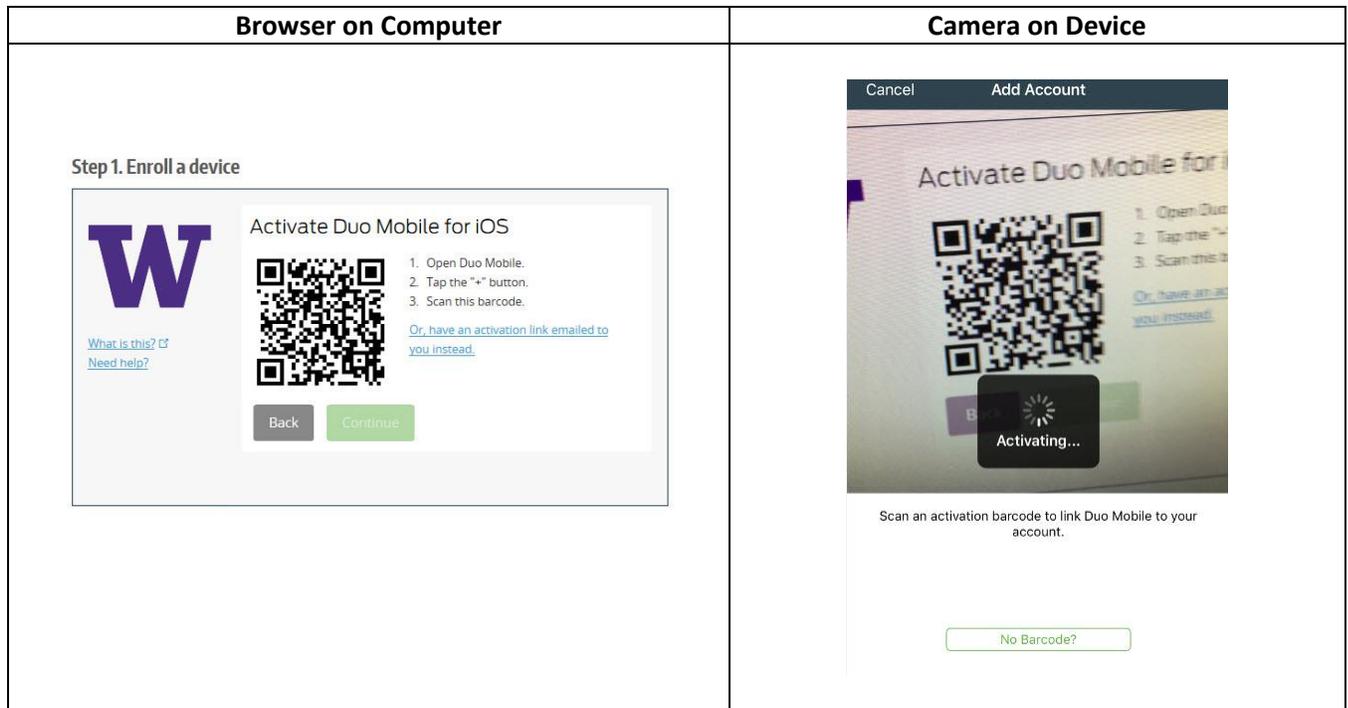

17. In Duo Mobile, tap "Add Account" or tap the "+" symbol in the upper right corner.

18. Click OK.

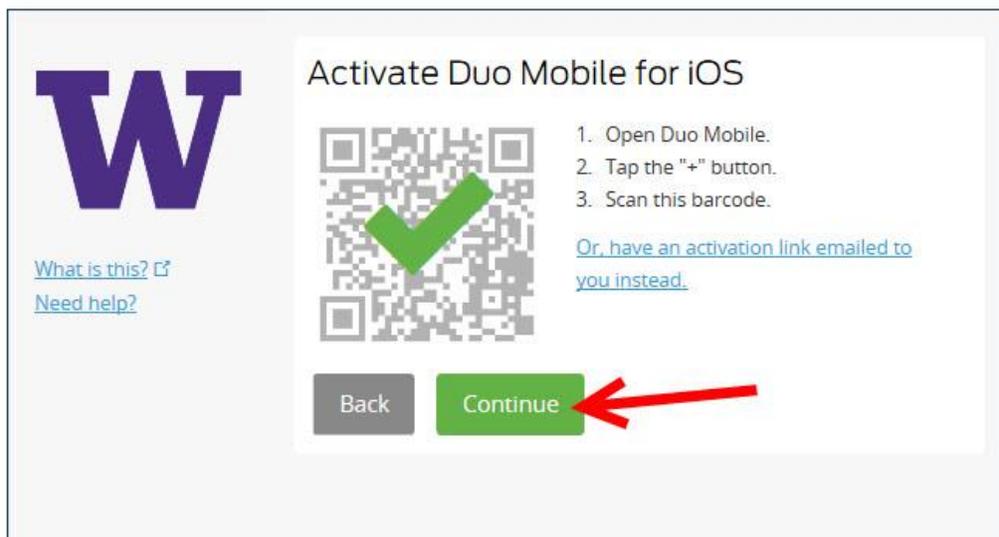

19. Point the camera on the mobile device at the QR code displayed in the browser on the computer. Duo Mobile will scan the QR code and add "University of Washington" to the list of accounts.

20. Duo places a green check mark over the QR code to indicate success. Click Continue.

## Manage 2FA devices

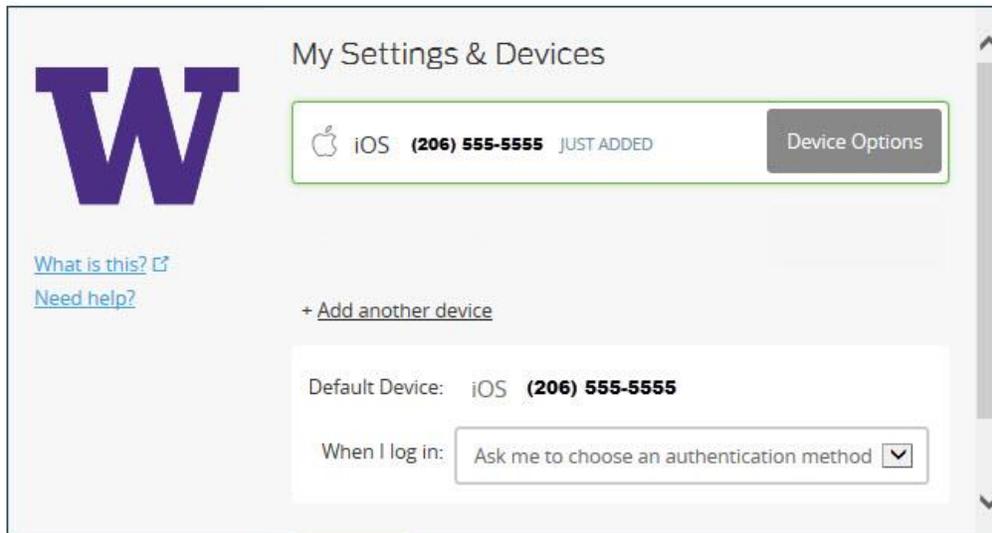

Sign in with Duo to manage your devices or add a new device.

21. Set up is complete. Duo will show “My Settings & Devices”. On this screen the device can be renamed or additional devices can be added as back up devices.

## Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

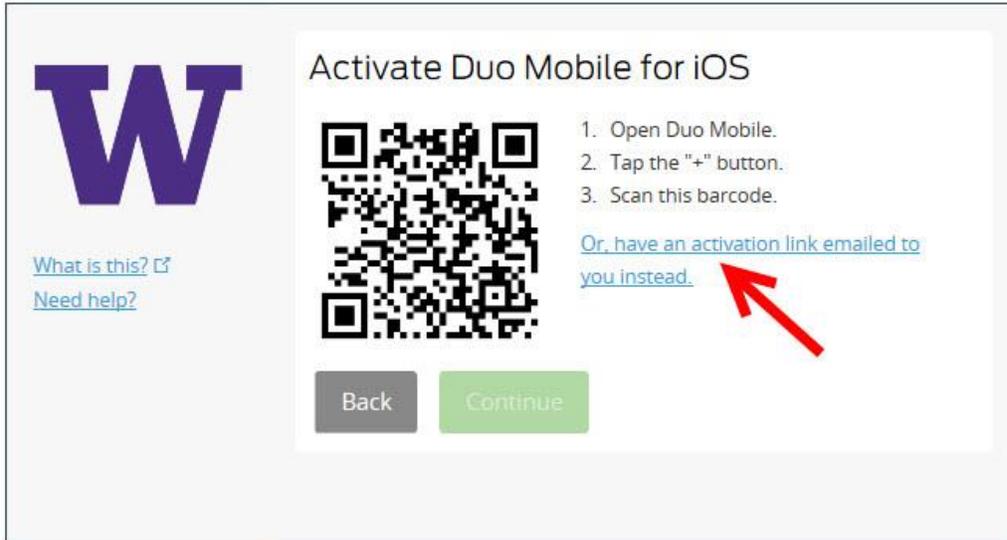

## Option #2 from page 28

The following steps are done in the web browser:

16. Select "Have an activation link emailed to you instead."

### Manage 2FA devices

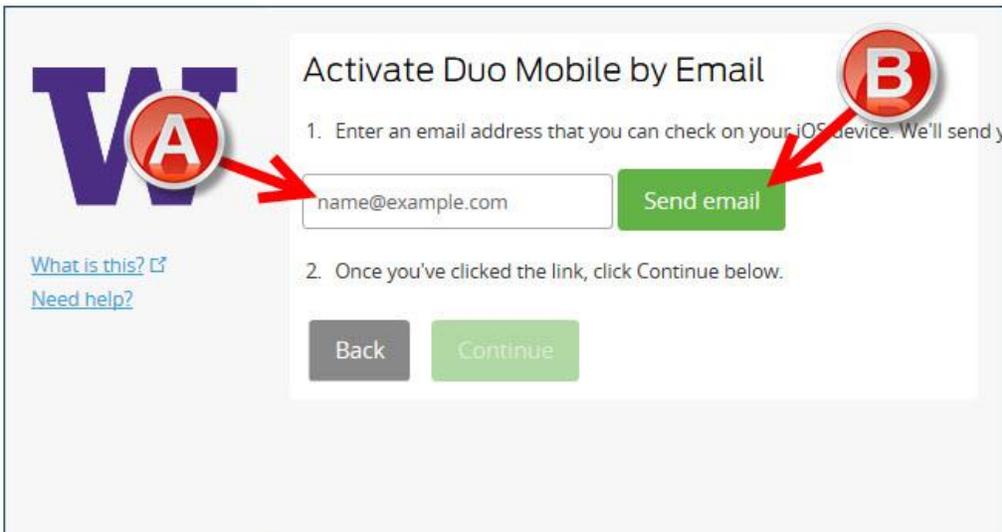

Sign in with Duo to manage your devices or add a new device.

17. Enter an email address that is active on the mobile device being enrolled, and select Send email.

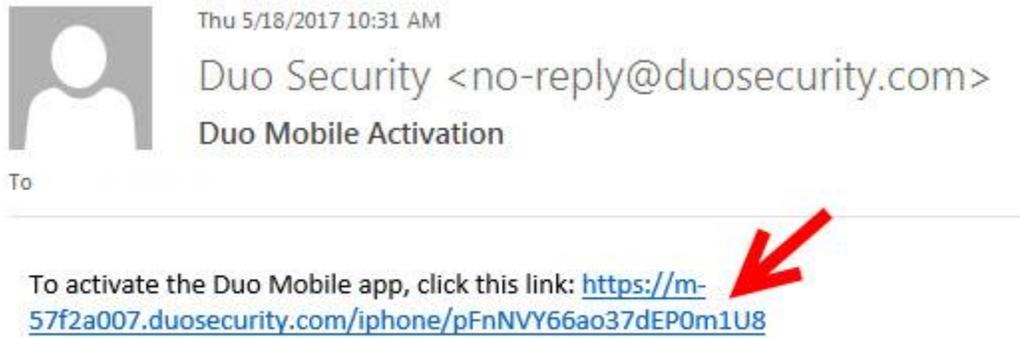

### Manage 2FA devices

Sign in with Duo to manage your devices or add a new device.

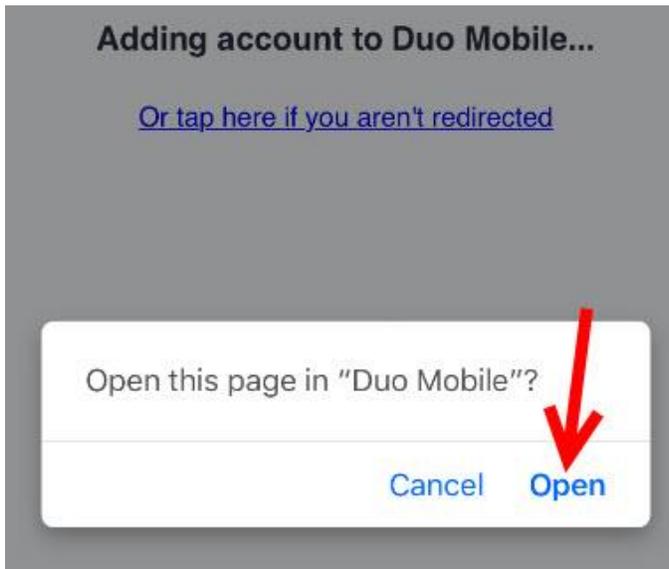

**The following steps are done in the email App on the mobile device:**

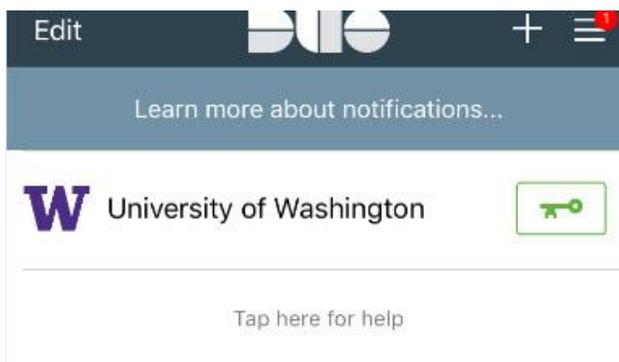

18. Duo will send a Duo Mobile activation link to the provided email address. On the mobile device open the email account provided to Duo, open the email from “Duo Security” and click the activation link in the email.

19. After clicking the link the user may get the message shown below. Tap Open.

20. Duo Mobile will open and “University of Washington” will be in the list of accounts.

The following steps are done in the web browser:

21. Click Continue.

## Manage 2FA devices
