

# wazeCARPOOL

connecting commuters with empty seats to commuters who need rides

## Drive to campus? Make money.

Drivers using Waze Carpool and commuting to or from University of Washington can make up over \$500/month just by picking riders up along their route!

The UW rider fall campaign has no effect on driver pay amount. Drivers receive the same pay no matter how much the rider is charged.

**Get gas covered. And then some.**

## Ride to campus? Ride for \$1.

How it works:

University of Washington Waze Carpool Riders can ride to and from campus for \$1 no matter the distance through Oct 31st

After October 31st, Waze Carpool riders have no minimum ride charge, pay no more than \$0.54 per mile

At \$0.54 per mile or less, Waze Carpool is the most affordable way to Carpool to or from campus.

**More enjoyable. More affordable.**

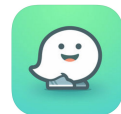

### Drive

Download **waze**

To sign up, simply tap the Carpool button from the homepage (bottom right).

### Ride

Download **wazeCARPOOL**

Follow the sign up instructions in the app to request your first ride.

Must verify **@uw.edu** email address at "work email verification" to trigger free rides.
